

## Pipeline Engineer

- **BRISBANE BASED OPPORTUNITY**
- **RELOCATION ASSISTANCE PROVIDED**

**Share the Vision, Share the Wealth**

*Linc Energy is a young and dynamic company positioned to lead the world in alternative energy production. We aim to produce ultra-clean diesel and jet fuels by using our established Underground Coal gasification (UCG) in combination with Fisher-Tropsch Gas to Liquids Technologies (GTL) and in doing so convert stranded coal resources into valuable liquid fuels for an increasingly energy hungry world.*

*Linc Energy has set itself ambitious objectives to commercialise its GTL business within the next few years with plans to develop a 20,000 bpd facility at Chinchilla in Queensland. We are now looking for an outstanding Coal Geologist to work with the UCG team to be responsible for analysing, reporting and advising on the coal seam geology and coal characteristics in areas of interest to Linc energy.*

### **Want to help lead the journey?**

We are seeking an experienced Pipeline Engineer to lead the pipeline needs for Underground Coal Gasification. You will take the lead within a well site facility, pipeline design, documentation, specification, layout and procurement. You will have a thorough understanding of pipeline engineering principles including construction, operation and maintenance.

This role encompasses both the current operations in the field at Chinchilla, as well as research and development on future projects.

To be successful you will have:

- Tertiary qualifications in Engineering
- 3-5 years gas pipeline experience
- Detailed knowledge of corrosion protection & control
- Oil & Gas experience
- Relevant international project experience would be desirable

This is an exceptional opportunity for an experienced Pipeline Engineer who is looking for the next challenge with an exciting and innovative company doing great things! There will be ongoing opportunities for you to reach your full potential, as you help us achieve ours.

In addition you will be rewarded with excellent remuneration including sharing in the financial success of the business with share options, salary packaging options as well as an exceptional career opportunity.
