

## **SENIOR COAL EXPLORATION GEOLOGIST – USA based**

### **Share the Vision, Share the Wealth**

*Linc Energy is a world pioneer in clean coal technology leading the charge to develop alternative energy sources to drive the future. We are at the final stages of a demonstration Gas-to-Liquids plant converting syngas produced by Underground Coal Gasification into clean fuels. We are currently sourcing industry experts to further develop our international capabilities.*

We are looking for an exceptional international Coal Geologist to lead the exploration for coal reserves in the USA. You will have at least 10 years experience in Coal Exploration and Coal Geology with the ability to develop, lead and direct an independent exploration program. You will work closely with the Exploration Manager based in Australia to drive this key international initiative.

At Linc Energy we encourage our team to prosper through having a direct impact on not only the success of the business, but their own personal wealth generation. To do this we offer our employees an extraordinary opportunity to become a shareholder in the business through our employee share option scheme.
