

DIRECTIONAL DRILLING ENGINEER
Share the Vision, Share the Wealth

Linc Energy is the Australian pioneer in clean coal technology leading the charge to develop alternative energy sources. We are currently in the final stages of commissioning a demonstration Gas-to-Liquids plant converting syngas produced by Underground Coal Gasification into clean fuels. To complete this leading national project Linc Energy is in the middle of an aggressive recruitment campaign.

We encourage our team to prosper through having a direct impact on not only the success of the business, but their own personal wealth generation. To do this we offer our employees an extraordinary opportunity to become a shareholder in the business through our employee share option scheme.

An opportunity exists for an exceptional Directional Drilling Engineer to provide drilling engineering input on conceptual, feasibility and design studies for new Underground Coal Gasification projects.

This role encompasses Australian and future international projects.

To be successful you will have:

- *5+ years oil/gas drilling experience*
- *Experience drawing up drilling programs – selection of rigs, parts, casing*
- *Competence in preparation of AFE budgets*
- *Experience managing and supervising drill rig operations*
- *Demonstrated Operational experience using directional drilling technology*
- *Demonstrated research & report writing experience desirable*
- *Relevant international drilling experience would be desirable*
- *Preparation and reporting of End of Well Reports*

This is an exceptional opportunity for an experienced Directional Drilling Engineer who is looking for the next challenge with an exciting and innovative company doing great things! There will be ongoing opportunities for to reach your full potential, as you help us achieve ours.

You will also be rewarded with competitive remuneration including sharing in the financial success of the business with share options.
